I BELIEVE IN THE GOOD...

I love working for the Jewish Federation of Delaware because it allows me to connect with my mother's Jewish ancestry and give back to a community that means so much to me. The Jewish values of compassion, repairing the world, and connection guide everything we do, and being part of that mission is deeply meaningful. I'm especially proud to support efforts that combat antisemitism and help ensure a safe, vibrant future for the Jewish people.

I BELIEVE IN THE GOOD...

"As a scientist, I contribute to the Federation because its mission to advance agricultural research in Israel deeply aligns with my passion for developing sustainable, science-based solutions that ensure global food security. Through innovation in crop resilience, soil health, and animal science, we are directly addressing the growing challenges of environmental change and resource scarcity. The impact of this work on humanity extends far beyond Israel; we are paving the way for future generations to inherit a world with secure food supplies, thriving ecosystems, and a more balanced global environment."
